Baldrige & Associates Structural Engineering, Inc. is thankful for another productive year. Below is a list of select highlights from 2009 that would not have been possible without the support of our clients and our talented team of dedicated BASE employees:

- BASE is well represented in PBN's list of **commercial projects**, having provided services on 4 of the top 8 projects of 2009. Included in this list is the impressive Trump International Hotel & Tower, which opened this December.
- Honored as finalists in the Pacific Business News Business Leadership Hawaii awards since 2003, BASE won the designation of **Best in Business II** in 2007 and **Innovative Company of the Year Finalist** in 2009. We were also honored as a finalist in the 2009 Small Business Success awards as recognized by **Hawaii Business magazine**.
- National recognition as a **HOT FIRM**, one of the 200 fastest growing AE firms in North America, by Zweig-White in 2008 and 2009.
- Our commitment to Sustainable Design continues with the LEED accreditation of 40% of our engineering staff.
- Our new Chicago and Guam offices expand our ability to better service existing clients outside Hawaii. New projects for these offices include:
 - ▷ Iowa National Guard Facility (Blast Consultant)
 - ▷ CSO Bachelor Housing, Pensacola, FL (D/B Competition)
 - ▷ Ypao Road Townhouses, Tamuning, Guam
 - ▷ Tumon Heights Tower, Ypao Road, Guam
- In Honolulu, 2009 saw the completion of several large successful projects and the beginning of many new ones. A few of these projects include:
 - ▷ C-17 Fuel Nose Dock, Hickam AFB (Completed)
 - ▷ Pacifica Tower (Formerly Moana Vista)
 - ▷ Aloha Stadium Renovations and Upgrades
 - ▷ Fort Shafter Command and Control Facility
 - ▷ Guam Government of Japan IDIQ (New 5 year contract)
- After the devastating earthquake and tsunami that struck Samoa, Steven Baldrige volunteered his time and expertise investigating structural damage for the Earthquake Engineering Research Institute.

BASE looks forward to the new opportunities and exciting challenges that the new year will bring, as well as the chance to forge relationships with our clients that will last well into the future.
